

# SRI ANNAAMALAI M

GenAI & Agentic AI Engineer | LLM Integration | Multi-Agent Architectures | Python | LangChain | RAG  
+91 9585520715 | sriannaamalai@gmail.com | [linkedin.com/in/sri-annaamalai-m](https://www.linkedin.com/in/sri-annaamalai-m) | Coimbatore / Bengaluru, India

## PROFESSIONAL SUMMARY

Software Associate and GenAI & Agentic AI Engineer at SNS Square with 2+ years of experience building intelligent autonomous systems. Expertise spans LLM integration, multi-agent architectures, RAG pipelines, and full-stack development (React, Node.js, Python). Proven ability to deliver end-to-end AI-powered products from architecture and development to deployment and product management. Certified in Databricks Data Engineering, Generative AI, IBM RAG & Agentic AI, and multiple Microsoft Azure AI certifications.

## TECHNICAL SKILLS

- **Languages:** Python, JavaScript, Java, C, HTML, CSS, SQL
- **AI / GenAI:** LangChain, LangGraph, RAG, Prompt Engineering, Agentic AI, Multi-Agent Systems, OpenAI API, Google Gemini
- **Frontend & Backend:** React.js (Vite), Node.js, Express.js, REST APIs, NextJS
- **Cloud & Data:** Databricks, Delta Lake, Apache Spark, Postgresql, MongoDB,
- **Tools & Platforms:** Claude code, Git, Docker, Jira, Postman, Razorpay API, VS Code, Antigravity, Cursor, other view coding tools

## EXPERIENCE

### Software Associate

Sep 2025 – Present

SNS Square | Bengaluru, Karnataka, India | Full-time, On-site

- Design and deploy Agentic AI systems using LangChain and LangGraph, enabling multi-agent orchestration for enterprise automation workflows.
- Build and optimize RAG pipelines integrating vector databases with LLMs (OpenAI, Google Gemini) for intelligent document retrieval and Q&A.
- Lead architecture design for scalable GenAI solutions, ensuring production-grade reliability, performance, and cost efficiency.
- Mentor junior associates on Agentic AI best practices and contribute to internal knowledge-sharing on LLM integration patterns.

### Junior Software Associate

Jul 2024 – Sep 2025

SNS Square | Coimbatore, Tamil Nadu, India | Full-time, On-site

- Developed a full-stack Technical Assessment and Recruitment Platform using React (Vite), Node.js, and Python AI microservices integrated with OpenAI and Google Gemini.
- Built AI-powered features: Resume Analyzer, Candidate Matchmaker, Job Description Generator, AI Feedback Report, Evaluation System, and Proctoring System.
- Integrated Razorpay payment gateway across backend, frontend, and API layers for end-to-end transaction handling.
- Served as PMO (Product Manager Officer) coordinated cross-functional teams, managed sprint planning, resource allocation, and on-time delivery.
- Designed and deployed ML models using TensorFlow and PyTorch; contributed to data preprocessing, model evaluation, and performance optimization.
- Led the product deployment pipeline with focus on UX optimization for market-ready release.

## INTERNSHIPS

### Android Development Intern

Jul – Aug 2023

UNIQU SOFTECH

- Built Android UIs using XML and Material Design; managed data with SharedPreferences and SQLite; implemented background tasks and network communication.

### AI with Python Intern

Jul – Aug 2022

Net Tel Solutions India Pvt Ltd

- Applied TensorFlow, Keras, scikit-learn, and PyTorch for model development; performed hyperparameter tuning and model debugging.

### Web Development Intern

Dec 2021 – Jan 2022

Accent Techno Soft

- Built web interfaces with HTML, CSS, JavaScript; explored React and Angular; developed debugging and troubleshooting skills.

## PROJECTS

---

### Realtime Hand Gesture Recognition Using OpenCV

Apr 2024

- Applied OpenCV for skin tone detection and fingertip tracking to classify hand gestures in real time.

### Detection of Diabetic Retinopathy Using Machine Learning

Jun 2022

- Built a CNN model trained on retinal images to detect diabetic retinopathy; optimized for high sensitivity in clinical image classification.

### Home Automation Using IoT with NodeMCU ESP8266

Mar 2021

- Enabled remote control of home appliances via a web interface using NodeMCU ESP8266 and IoT protocols.
